ODENSE CONGRESS  
CENTER

---

## Internet at OCC

Appendix to technical ordering form no. 5

---

### Network at OCC:

You have the following options when purchasing your internet connection at Odense Congress Center:

- Wired internet. This provides a high degree of operational stability and should be chosen if you plan on streaming considerable amounts of data from the internet (fx. videos from Youtube, your company network or similar).
- WiFi internet – closed network with private code. Please note that we cannot guarantee against interference from nearby electronics and transmitters, which can cause intermittent dropouts.

### Specifications

The internet at Odense Congress Center is built around a 250 Mbit/s central connection. We offer one or more VLAN connections with data speeds from 4 Mbit/s (in- and outgoing). IP addresses are assigned automatically.

All connections include unlimited data but NOT configuration of exhibitor's equipment.

### Precautions:

We are happy to allow you the use of our internet connection during your stay with us. However, to ensure your maximum satisfaction, as well as protect against virus and hacking attempts, we require that:

1. Your equipment to be connected (PCs, tablets and/or smartphones) is installed with fully updated anti-virus software.
2. You have completed anti-virus scans of all units to be connected, prior to arriving at OCC.

### Security:

All PCs will be provided with a firewall, which is continuously updated. However, Odense Congress Center disclaims any responsibility for any and all damage or loss incurred as a result of hostile actions (such as virus or hacker attacks) on connected units.

**NB!** In order to ensure maximum bandwidth and general network quality, access is restricted to certain web pages and/or domains that have no relevance to the show.

Further info can be obtained from our technical department by phone: +45 2372 3195

Tel. +45 6556 0100 • Fax: +45 6556 0299
